WEBSITE ADVERTISING

We have two popular websites: The council's main site www.ealing.gov.uk and the news and features site EalingNewsExtra.co.uk. Between them, they attract more than 1.4million page impressions per month.

ADVERT TYPES

You can book two kinds of advert on the main council site: Leaderboard (banner adverts) and MPUs (versatile square or rectangular adverts), examples of which are shown below. Only MPUs are available on the Ealing News Extra website. Both websites attract a cross-section of residents from all over the borough as well as visitors from elsewhere. They provide access to the biggest online audience available in our area of west London.

Unless you wish to run a leaderboard advert on the main council website only, adverts will appear on both of these sites. If you purchase and submit both kinds of advert type, only one advert will appear at any one time on the main council website.

FLEXIBILITY AND TARGETING

Advertising with us online puts you in control of your advertising and allows you to scale up your campaign and extend your audience reach at any time. We can also (subject to availability) place your adverts on specific pages on our websites where visitors interested in your products or services are most likely to be found.

You can monitor the success of your advertising by tracking 'click-throughs' to your own website or the number of people responding to any specific offers. We will also provide you with a report at the end of your campaign which will tell you how many people responded to your advert to help you plan future campaigns.

Contact us for guidance on our online advertising options and how you might best use them.
